RETURN TO WORK.

The Settlement Was a Compromise
Which Was Made at a Secret Ses-
sion Between the Men and
Packers and Ratified.

Chicago, June 5.—Packing house teamsters' strike came to an end at 4:15 o'clock this morning as a result of a secret conference between representatives of the packers and teamsters which had been in session since 8 o'clock last night.

The agreement reached is a partial victory for the teamsters in that the packers have declared that they will not discriminate against the members of the union.

The scale agreed upon is two cents lower than that demanded by the men.

Another conference was held at which the agreement was ratified. In the meantime all pickets were withdrawn and the men returned to work.

Five hundred teamsters assembled at Corcoran hall, near the stock yards, and ratified the agreement made between their representatives and packers.

MEAT WAGONS MOVED!

Police Had to Fight Their Way Through
Numerous Blockades.

Chicago, June 5.—Driven by men covered with dust and blood, many of them barely able from exhaustion to hold the reins in their hands, thirty-six meat wagons entered the main gate of the Union Stock yards Wednesday night amid a shower of stones, bricks, bottles and sticks. The wagons, guarded by five police wagons, filled with bluecoats and two omnibuses, crowded to the fullest capacity with policemen were on the return from a delivery of supplies to downtown provision houses after one of the fiercest days in the strike of the beef packers teamsters.

Many of the drivers, who are officials at the packinghouses, were cut and bruised from head to foot. The police were in even worse condition. The wagon drivers had been working from five o'clock in the morning and their progress from the stockyards into the city's business district and back again had been contested bitterly.

At the very entrance of the stockyards Wednesday night, after all seeming danger had passed, George June, an employee of the Anglo-American Packing company, was struck by a baseball bat and knocked from his wagon seat. He was picked up in an unconscious condition and it is believed he may die. Many others were struck at the same time by a shower of stones, but the police were too worn out to offer resistance.

More than a dozen battles were fought during the day between the rioters and the police and the hospitals are over-crowded with the injured. The fiercest battle of the day took place in the evening at Sixteenth street and Michigan avenue. The rioters stood on the viaduct and hurled rocks at the meat wagons passing underneath. The throng was the most formidable in numbers and in daring of any of the crowds that gathered during the day. Before this mob could be dispersed the police were compelled to use revolvers. More than fifty shots were fired, the bullets passing over the heads of the crowd which finally became frightened and scattered, but not until many of the rioters and policemen had suffered serious injuries.

It is estimated the total number of injured is between 100 and 150. The soldiers of the First regiment I. N. G., were instructed Wednesday night to be prepared for a hurry call for duty. The commanding officers sent word to other officers and through them the commissioned officers were detailed to notify the privates to be ready at a moment's notice. Governor Yates is in the city and will look into the strike.

Will Investigate Kidnaping.

New York, June 5.—Minister Squires is to make a thorough investigation of the reported kidnaping and murder of a Spanish boy at Cienfuegos, and of the threats against the lives of wealthy Spaniards if a certain amount of money is not paid, says a dispatch from Havana. While no American has been threatened, his interest in the situation is because of the responsibility for life and property assumed by the United States under the present Platt amendment. President Palma has taken prompt action toward the apprehension of the perpetrators of the murder. He has made it clear that he will do all in his power to suppress lawlessness.

New Contagious Disease.

New York, June 5.—Because of the discovery that ophthalmia, a disease of the eyes, is prevalent among a large proportion of the pupils in the public schools of this city the board of health has placed it on the list of contagious diseases, and physicians hereafter will

be required to make reports of each case found in their private practice.

Shot by Premature Blast.

Austin, Tex., June 5.—A premature blast in an excavation for sewerage on the university grounds seriously injured a workman named William Gouttett. Believing the fire on a fuse had gone out Gouttett went to the blast. As he reached it the explosion occurred blowing him ten feet away. He was unconscious when picked up.

REWARD FOR KITCHENER.

House of Commons Votes to Give Him
Fifty Thousand Pounds.

London, June 5.—The house of commons voted the grant of £50,000 to Kitchener. The motion was made by the government leader, Balfour, and seconded by the Liberal leader, Sir Henry Campbell-Bannerman.

John Dillon, the Irish Nationalist said he and his friends absolutely objected to the vote, because they were opposed to the policy of war in South Africa and the conduct of the campaign. William Redmond, Irish Nationalist, caused a scene of great dis-

GENERAL KITCHENER.

order by remarking that Kitchener would go down in history as the general who had "made war on women and children." This remark called forth loud cries of "withdraw" and appeals to the chair to call Redmond to order.

The chairman said the expression used was not disorderly, but the majority of the house refused to listen any further to Redmond and interrupted him with all kinds of shouts. Closure was then moved and adopted by 273 to 138 votes, and the grant of £50,000 to Kitchener carried by 380 to 44 votes.

TAFT SEES THE POPE.

His Visit Was in Regard to Affairs in
the Philippines.

Rome, June 5.—The pope today received Judge Taft, civil governor of the Philippines, Bishop Thomas O'Gorman of Sioux Falls, S. D., Judge Smith and Major Porter of the judge advocate's departments at Washington. The meeting was in regard to the Philippines.

Judge Taft presented the pontiff with a box containing President Roosevelt's literary works and the pope expressed his thanks for Mr. Roosevelt's friendly greetings.

The pope promised to study the difficult question and said he hoped for good results.

Judge Taft subsequently met Cardinal Rampolla, the papal secretary of state, and opened discussion of Philippine matters with him.

GEORGIA PRIMARIES.

The Democrats Selecting Men for Va-
rious State Offices.

Atlanta, June 5.—Democratic primaries were held in the state today to decide the nomination for governor and other state officers and congressmen.

The candidates for governor are: J. M. Terrell, who resigned state attorney generalship to enter the campaign; Dupont Guerry and J. H. Estill, editor of the Savannah News. Terrell is running on local option platform. Guerry contends for state prohibition, and the Estill ticket proposes several reforms including labor and taxation questions.

The battle at the polls will be fought between Terrell and Guerry, Estill hoping to win before state convention where he believes neither Terrell nor Guerry will secure nomination.

Daughter of the Revolution.

New York, June 5.—Mrs. Bailey Bartlett, a daughter of the revolution, is dead from pneumonia at Orange, N. J. She was 99 years old and was the widow of Bailey Bartlett of that state who was a member of the First Continental congress and a close friend of Washington. John Adams and John Hancock. Her father, Moses Long, served in the revolutionary war. He was at the surrender of Burgoyne, passed through the winter at Valley Forge, fought at Monmouth, and after that battle was made one of Washington's guards.

Extension of the Choctaw.

Guthrie, O. T., June 5.—The Choctaw Railroad company is buying the right of way for an extension from Milburn, I. T., to Denison, Tex., crossing the Missouri, Kansas and Texas a short distance south of Sterrett, I. T.

Hon. Michael Henry has been appointed British ambassador to Washington to succeed Lord Pauncefoot, deceased.

Senator Culberson has stired up the administration mightily by securing the Weir charges of Philippine outrages and an investigation is on to find out where he got the paper.

The initial shipment of 650 head of cattle has been made to South Africa, and will have a far reaching effect on the future of this industry in Texas. Mules or cattle, or most anything else you want, Texas is in it.

There are lots of bad eggs to cover up in the Roosevelt nest. There's the Philippine outrages, Gen. Wood's extravagances in Cuba, the Schley-Sampson controversy, the treatment of General Miles, the Booker Washington dinner, the coronation toadyism, the Arlington speech, and well there are too many to mention in detail.

Many people believe that destructive storms are more numerous than they were some years ago. Statistics do not show this to be a fact. As the country settles up it becomes more and more difficult for a cyclone to visit the earth without being caught in the act; and improved means of disseminating news results in everybody being promptly informed concerning any such visitations no matter where it occurs. Thus it is that more cyclones are witnessed, and fewer escape unnoticed than was once the case, without any increase in their actual numbers.—Farn and Ranch.

HOPE IN ROOSEVELT.

Miners Believe He Will Force the Operators to Arbitrate.

Wilkesbarre, June 5.—The eyes of the striking miners are turned towards the White House at Washington. New hope has arisen in the breasts of the men that the president of the United States at the suggestion of the New York Board of Trade may take up the task of attempting to bring the miner and mine owner together.

There is a strong belief here that President Roosevelt will take up the matter.

Mine workers feel that the great coal companies cannot turn a deaf ear to the chief magistrate and that if he can be prevailed upon to step into the breach it is not improbable the operators would recede from the stand they have taken.

The miners, it is known, stand willing to arbitrate.

President Mitchell had nothing to say when approached on the subject.

Swearing in More Deputies.

Harrisburg, June 5.—Sheriff Rieff swore in a small force of deputies today for duty in Lykens valley coal region. Trouble is brewing at Lykens and Wiconso and the sheriff says trouble is likely to occur at any moment.

No disturbance is reported in any part of the strike region. Strikers have been successful in several instances in persuading substitutes to quit work.

OPPOSING MORGAN.

British and Canadian Governments May Establish Fast Mail Line.

London, June 5.—Negotiations of the British and Canadian governments and some of the other colonial governments with the Cunard line and other lines compromising what is now termed the Liverpool syndicate, which is opposing the Morgan shipping combine, contemplate according to the Westminster Gazette, both fast service of mail and passenger steamers in conjunction with Canadian Pacific railroad and a fleet of fast freight steamers.

The mail steamers will be of enormous size, capable of steaming 25 knots an hour, and will be fully equipped for use as armed cruisers.

The freight steamers will be sixteen knot vessels carrying six to seven thousand tons dead weight.

SAW FLOATING ISLANDS.

Remarkable Story Told by a Sea Captain When in the Caribbean.

New York, June 5.—The Norwegian steamer Donald, from Banos with fruit has arrived here, says a Philadelphia special. Capt. Warnecke told this remarkable tale:

"We were two days out from Banos and about thirty miles from Watlin's island, in the Caribbean sea, when we came upon a floating island. I, with the mate and several of the crew, rowed toward it. Thousands of little monkeys scampered all about the shore, and when we were in range they began a bombardment by shying coconuts at us. We captured two monkeys. "The following day we discovered another floating island and landed. This time we were greeted by a covey of parrots of most brilliant plumage." Capt. Warnecke declared that the eruption in Martinique had shaken up the entire district, and the small pieces of land had become separated from some uninhabited island.

Consistory for Next Monday.

New York, June 5.—The pope will hold a consistory next Monday, when cardinal hats will be conferred upon Archbishop Skerbenky of Prague, and Puzani of Cranenow, and Monsignor Martinelli, formerly papal delegate at Washington, cables the Rome correspondent of the Herald.

There will be no additional cardinals nominated at the consistory, but among other nominations will be that of Monsignor Messmer of Green Bay, Wis., as new archbishop of Manila. The new archbishop of New York also will be named.

Monsignor Calconio, papal delegate in Canada, will be transferred to Washington, as previously announced.

Chamberlain May Yet Lose.

Portland, Ore., June 5.—Corrected returns give Chamberlain, Democrat, for governor a lead of only eight votes over Furness, Republican.

No returns have been received from Curren, Malheur and Harney counties. In 1898 these counties gave Geer, Republican, for governor, a majority of 116 votes.

Late returns increase the Republican majority in legislature.

Serious Wreck.

Chattanooga, Tenn., June 5.—Cincinnati Southern local passenger No. 5, from Oakdale, Tenn., running late, struck a cow south of Cave Springs, derailing the engine and upsetting one of the passenger coaches. Engineer Frank Finch and Fireman Pay were killed. Four passengers were injured, none seriously.

Brisson Refuses to Serve.

Paris, June 5.—M. Henry Brisson, former premier, who is a Radical Republican in politics, went to the Elysee Palace as a result of President Loubet's summons, and was asked to form a new cabinet, but declined.

Flour Mill for Grapevine

Grapevine, Tex., June 5.—The directors of the Grapevine Milling association met Wednesday to receive bids for machinery for a fifty-barrel mill. They have \$15,000 subscribed.

Kruger Not Ill.

The Hague, June 5.—There is no foundation for the reports that Kruger is ill. On the contrary, he is enjoying good health.

Correspondence

Correspondence is much more delightful and satisfactory when the proper stationery is used. As you know CRANE & HURD excel in their makes of fine fashionable box papers; so if you have a box of their latest your taste is correct. This is the season that new shapes, textures and tints are introduced and we have just opened a new lot of the latest novelties such as CRANE'S CHIFFON BELLUM, CRANE'S KID FINISH, CRANE'S LINEN LAWN, HURD'S BANK NOTE BOND, HURD'S ROYAL GRAY, HURD'S AZURE BOND. The correct sizes for this season are very large sheets and envelopes.

FRIDAY, JUNE 6, 1902.

Chicago is again active as a riot center, and the police and hospital departments are overtaxed.

Hon. Michael Henry has been appointed British ambassador to Washington to succeed Lord Pauncefoot, deceased.

Senator Culberson has stirred up the administration mightily by securing the Weir charges of Philippine outrages and an investigation is on to find out where he got the paper.

The initial shipment of 650 head of cattle has been made to South Africa, and will have a far reaching effect on the future of this industry in Texas. Mules or cattle, or most anything else you want, Texas is in it.

There are lots of bad eggs to cover up in the Roosevelt nest. There's the Philippine outrages, Gen. Wood's extravagances in Cuba, the Schley-Sampson controversy, the treatment of General Miles, the Booker Washington dinner, the coronation toadyism, the Arlington speech, and well there are too many to mention in detail.

Many people believe that destructive storms are more numerous than they were some years ago. Statistics do not show this to be a fact. As the country settles up it becomes more and more difficult for a cyclone to visit the earth without being caught in the act; and improved means of disseminating news results in everybody being promptly informed concerning any such visitations no matter where it occurs. Thus it is that more cyclones are witnessed, and fewer escape unnoticed than was once the case, without any increase in their actual numbers.—Farn and Ranch.

HOPE IN ROOSEVELT.

Miners Believe He Will Force the Operators to Arbitrate.

Wilkesbarre, June 5.—The eyes of the striking miners are turned towards the White House at Washington. New hope has arisen in the breasts of the men that the president of the United States at the suggestion of the New York Board of Trade may take up the task of attempting to bring the miner and mine owner together.

There is a strong belief here that President Roosevelt will take up the matter.

Mine workers feel that the great coal companies cannot turn a deaf ear to the chief magistrate and that if he can be prevailed upon to step into the breach it is not improbable the operators would recede from the stand they have taken.

The miners, it is known, stand willing to arbitrate. President Mitchell had nothing to say when approached on the subject.

Swearing in More Deputies.

Harrisburg, June 5.—Sheriff Rieff swore in a small force of deputies today for duty in Lykens valley coal region. Trouble is brewing at Lykens and Wiconso and the sheriff says trouble is likely to occur at any moment.

No disturbance is reported in any part of the strike region. Strikers have been successful in several instances in persuading substitutes to quit work.

OPPOSING MORGAN.

British and Canadian Governments May Establish Fast Mail Line.

London, June 5.—Negotiations of the British and Canadian governments and some of the other colonial governments with the Cunard line and other lines compromising what is now termed the Liverpool syndicate, which is opposing the Morgan shipping combine, contemplate according to the Westminster Gazette, both fast service of mail and passenger steamers in conjunction with Canadian Pacific railroad and a fleet of fast freight steamers.

The mail steamers will be of enormous size, capable of steaming 25 knots an hour, and will be fully equipped for use as armed cruisers.

The freight steamers will be sixteen knot vessels carrying six to seven thousand tons dead weight.

SAW FLOATING ISLANDS.

Remarkable Story Told by a Sea Captain When in the Caribbean.

New York, June 5.—The Norwegian steamer Donald, from Banos with fruit has arrived here, says a Philadelphia special. Capt. Warnecke told this remarkable tale:

"We were two days out from Banos and about thirty miles from Watlin's island, in the Caribbean sea, when we came upon a floating island. I, with the mate and several of the crew, rowed toward it. Thousands of little monkeys scampered all about the shore, and when we were in range they began a bombardment by shying coconuts at us. We captured two monkeys. The following day we discovered another floating island and landed. This time we were greeted by a covey of parrots of most brilliant plumage. Capt. Warnecke declared that the eruption in Martinique had shaken up the entire district, and the small pieces of land had become separated from some uninhabited island.

Consistory for Next Monday.

New York, June 5.—The pope will hold a consistory next Monday, when cardinal hats will be conferred upon Archbishops Skerbenky of Prague, and Puzani of Cranenow, and Monsignor Martinelli, formerly papal delegate at Washington, cables the Rome correspondent of the Herald.

There will be no additional cardinals nominated at the consistory, but among other nominations will be that of Monsignor Messmer of Green Bay, Wis., as new archbishop of Manila. The new archbishop of New York also will be named.

Monsignor Calconio, papal delegate in Canada, will be transferred to Washington, as previously announced.

Chamberlain May Yet Lose.

Portland, Ore., June 5.—Corrected returns give Chamberlain, Democrat, for governor a lead of only eight votes over Furness, Republican.

No returns have been received from Curren, Malheur and Harney counties. In 1898 these counties gave Geer, Republican, for governor, a majority of 116 votes.

Late returns increase the Republican majority in legislature.

Serious Wreck.

Chattanooga, Tenn., June 5.—Cincinnati Southern local passenger No. 5, from Oakdale, Tenn., running late, struck a cow south of Cave Springs, derailing the engine and upsetting one of the passenger coaches. Engineer Frank Finch and Fireman Pay were killed. Four passengers were injured, none seriously.

Brisson Refuses to Serve.

Paris, June 5.—M. Henry Brisson, former premier, who is a Radical Republican in politics, went to the Elysee Palace as a result of President Loubet's summons, and was asked to form a new cabinet, but declined.

Flour Mill for Grapevine.

Grapevine, Tex., June 5.—The directors of the Grapevine Milling association met Wednesday to receive bids for machinery for a fifty-barrel mill. They have \$15,000 subscribed.

Kruger Not Ill.

The Hague, June 5.—There is no foundation for the reports that Kruger is ill. On the contrary, he is enjoying good health.

Mr. and Mrs. R. R. Burns of near
Mesa, Grimes county, were in the
city trading Monday. Mrs. Burns in
conversation with a Pilot reporter
stated that last season they made
1180 gallons of syrup and had sold it
all at 50 cents a gallon. Mrs. Burns
says she superintends the syrup mak-
ing herself and believes she knows
how to make it as good as anybody.
She said they sold last month 44 hogs,
two dozen chickens and half a dozen
turkeys and a number of cattle. Mrs.
Burns stated that she expected to
continue coming to Bryan to trade
even if a railroad should build
through near their home.—Brazos

THE ISTHMIAN CANAL

Senator Morgan Opens the Debate for Nicaraguan Route.

BROOKS TO RETIRE.

Bill Passed Authorizing His Promotion and Retirement—Free Deliveries for Small Cities—Debate on the Anti-Anarchy Bill.

Washington, June 5.—Discussion of the project of construction of an isthmi canal was begun in the senate Wednesday. Mr. Morgan of Alabama, chairman of the committee on inter-oceanic canals, opened the debate, speaking nearly three hours. A considerable portion of his speech was devoted to an examination of the recently suggested danger to the Nicaragua canal route of seismic disturbances. This danger, he concluded, after a careful review of many authorities, existed only in the imagination of those who desired to defeat any canal project. His study of the situation had convinced him that really there was greater danger from volcanic and earthquake disturbance to the Panama route than to the Nicaragua route; but he was satisfied that little danger to either was to be anticipated.

Mr. Morgan reviewed at length the political conditions in Colombia, finding in them a grave menace to the United States in the construction of a canal by the Panama route. He presented also the present phases of the diplomatic negotiations looking to the building of a canal by both the Nicaragua route and the Panama route. He closed with a strong appeal for the passage of the Nicaragua bill.

Mr. Quay called up the bill authorizing the promotion and retirement of the present senior major general of the army, Major General John R. Brooks, and it was passed.

Mr. Platt of Connecticut suggested that the committee on military affairs report to the senate a bill providing for a permanent grade for the retirement of officers, and Mr. Warren of Wyoming thought that all officers who had served in the civil war ought to be permitted to retire at one higher grade than they held in the army.

A bill providing that the postmaster general may extend free deliveries to cities of 5000 inhabitants or \$5000 income instead of 10,000 inhabitants as at present, was passed.

Mr. Money of Mississippi questioned the accuracy of a statement made recently by Mr. Hoar in his speech on the Philippine bill, on the origin of the Monroe doctrine.

Mr. Hoar stated that John Quincy Adams was the author of the doctrine. Mr. Money contended that the doctrine was the result of consultations between Mr. Canning, the British prime minister, and Mr. Bush, the American minister to Great Britain.

Consideration was begun of the military academy appropriations bill which carries appropriations aggregating \$2,625,324.

Mr. Bate of Tennessee, a member of the military affairs committee, protested against the vast extent of the improvement proposed at West Point, aggregating, he said, \$6,500,000, the increase provided by the senate being about \$1,000,000.

The House.

Washington, June 5.—The debate on the anti-anarchy bill continued all Wednesday in the house, being confined almost entirely to the legal constitutional phases of the question. Mr. Jenkins of Wisconsin and Mr. Parker of New Jersey contended that the bill did not go far enough; that the killing of the president should be made punishable by death without any limitation whatever. Mr. Powers of Massachusetts and Mr. Nevin of Ohio supported the measure as it came from the committee.

When the house met Mr. Hull of Iowa, chairman of the committee on military affairs, reported back the resolution calling upon the secretary of war for a detailed statement of expenditures made under the direction of General Wood during his administration of governor general of Cuba, with the recommendation that it lie on the table and moved the adoption of the report. Upon that question Mr. Hay of Virginia demanded the ayes and noes, and the roll was called. The report was adopted—110 to 78.

Texas Ranks Third.

Washington, June 5.—Texas now ranks third in the number of national banks in operation. Pennsylvania comes first, with 541; New York is second, with 347; and Texas has 313. Pennsylvania will retain the lead for many years in all probability, but it is likely that Texas will pass New York by the end of the year.

Bryan Must Be a Populist.

Indianapolis, June 5.—It is understood that the Populists of Indiana will favor the nomination of William J. Bryan for president in 1904, but only on condition that he become an avowed member of their party.

Must Close on Sunday.

Sherman, Tex., June 5.—Chief of Police Blain has notified all saloon men that the law against open houses on Sunday will from henceforth be strictly enforced.

Died of His Wounds.

Sherman, Tex., June 5.—W. P. King of this city has received a telegram announcing that his son, S. P. King, who was accidentally shot at Memphis, Tenn., Tuesday, had died.

AGAINST PACKERS.

An Injunction Granted Against the Alleged Combine in New York.

Albany, June 5.—Supreme Court Justice Chester has granted an injunction restraining certain beef packers of the west from carrying on business in the state in violation of the anti-trust law. The order was served upon the representatives of the concerns in this city and will be served on others throughout the state as quickly as they can be reached. It was obtained upon the affidavit of D. Q. Meredith, a former manager of Swift & Co.

The injunction is directed against Armour & Co., Swift & Co., Cudahy Packing company, Hammond company, Schwarzschild & Sulzberger Co., and Nelson Morris & Co. Their managers and all persons acting for them are restrained and enjoined from fixing and determining by combining the prices to be charged for meat and from agreeing among themselves as to the supply of meat to be brought into this state by them and from acting upon any understanding tending to diminish such supply and from fixing or maintaining prices of their and each others products by agreement.

They are also enjoined from acting under any agreement whereby price of labor shall be affected or competition therein affected and also maintaining uniform rules for credit to dealers, or fixing uniform prices for car tags.

Justice Chester directed that the injunction "continue until further order of the court."

Big Judgment Paid.

Dallas, June 5.—The judgment of the United States court in the case of Mrs. Jennie M. Metter against the Fidelity Mutual Life association of Philadelphia was satisfied Wednesday when the company paid into court the sum of \$24,028.25. The costs in this case amount to \$2358.28, and are taxed against the defendant. The case has been in court for the last five years and was carried to the supreme court of the United States, which handed down its decision May 5.

This case involved the constitutionality of article 3071 of the revised statutes of Texas, which provides that in all cases where a loss occurs and the insurance company liable therefor shall fail to pay in the time specified in the policy it shall pay to the holder of the policy in addition to the policy 3 per cent of the amount of the loss, together with all reasonable attorney's fees for the collection of the claim.

Texas Base Ball Games.

The following is the result of games of baseball played on Wednesday:

TEXAS LEAGUE.

At Paris—Paris, 3; Dallas, 11. Batteries, Blackburn and Moore. Sparger and Berry.

At Fort Worth—Fort Worth, 8; Texarkana, 0. Batteries, Doyle and O'Donnell, Yeager and Blasengame.

At Corsicana—Corsicana, 9; Waco, 2. Batteries, Wright and Clark, Ahern and Stubblefield.

SOUTHERN LEAGUE.

At Little Rock—Little Rock, 7; Nashville, 1.

Murder and Suicide.

Austin, June 5.—A terrible murder and suicide were committed here when J. F. Waxler, a carpenter, aged 26, with a long butcher knife cut the throat of his young 15-year-old wife and then took the bloody knife and cut his own throat. Their heads were almost severed from the bodies. The crime occurred at the Waxler home, near the Blind Institute, and there was no eyewitness to the terrible tragedy. Jealousy supposed to be the cause.

Mud Volcano in Russia.

Baku, Russia, June 5.—The Gushyran, a mud volcano, situated near the village of Kobi, Caucasasia, has been in eruption. The outburst was accompanied by cannonlike reports. The country around the volcano for some distance was enveloped in flames but with the exception of the destruction of flocks of sheep no fatalities have been reported. A few sheep herders were burned.

Accidentally Shot.

El Paso, Tex., June 5.—Charles Krause, a baker, was shot in the left breast in his room Wednesday. He will recover. The wound is said to have resulted from the accidental discharge of a pistol which Krause was cleaning.

Struck by a Train.

Garland, Tex., June 5.—Avery Summers, section foreman on the Santa Fe, was struck by the northbound flyer here and very seriously injured. Both legs were broken and internal injuries were sustained.

Fell Fifty Feet.

El Paso, Tex., June 5. Albert Derrick, head brakeman on a Bisbee railway construction train, fell fifty feet from a trestle with a car of gravel on which he was riding and crushed into a pulp.

Shooting Near Devers.

Devers, Tex., June 5.—In a shooting affair between Charley Carsin and H. P. Roberson, about eight miles southeast of this place, in which a shotgun and Winchester rifle were used, Charley Carsin was killed.

A Novel Strike.

Cleburne, Tex., June 5.—Thirty-seven men in the Santa Fe blacksmith shops walked out Wednesday because the company did not furnish sufficient ice for drinking water.

Depot Safe Blown.

LaGrange, Tex., June 5.—The Southern Pacific passenger depot here was burglarized. The safe was blown open and the contents, amounting to \$275, were taken.

No Jurisdiction Over Street Cars.

Austin, Tex., June 5.—The railroad commission several days ago submitted to the attorney general the question as to whether or not it had jurisdiction in deciding controversies over crossing where one party is a street railway. It is understood that the attorney general has advised the commission that it is without jurisdiction in such cases. The question arose in a case at El Paso, where the electric railway seeks to cross a grade of the Santa Fe.

Accidentally Killed Himself.

Corsicana, Tex., June 5.—Lawrence, the 17-year-old son of M. T. Jackson, of this city, accidentally shot and killed himself at Richland. The young fellow reached for his shotgun to shoot at something and the hammer caught on a box, firing and killing him instantly. The shot entered the mouth and came out at the back of the head.

Military Academy Bill Passed.

Washington, June 5.—The senate passed the military academy bill without amendment.

NEWS IN BRIEF.

THE ISTHMIAN CANAL

Senator Morgan Opens the Debate for Nicaraguan Route.

BROOKS TO RETIRE.

Bill Passed Authorizing His Promotion and Retirement—Free Deliveries for Small Cities—Debate on the Anti-Anarchy Bill.

Washington, June 5.—Discussion of the project of construction of an isthmian canal was begun in the senate Wednesday. Mr. Morgan of Alabama, chairman of the committee on inter-oceanic canals, opened the debate, speaking nearly three hours. A considerable portion of his speech was devoted to an examination of the recently suggested danger to the Nicaragua canal route of seismic disturbances. This danger, he concluded, after a careful review of many authorities, existed only in the imagination of those who desired to defeat any canal project. His study of the situation had convinced him that really there was greater danger from volcanic and earthquake disturbance to the Panama route than to the Nicaragua route; but he was satisfied that little danger to either was to be anticipated.

Mr. Morgan reviewed at length the political conditions in Colombia, finding in them a grave menace to the United States in the construction of a canal by the Panama route. He presented also the present phases of the diplomatic negotiations looking to the building of a canal by both the Nicaragua route and the Panama route. He closed with a strong appeal for the passage of the Nicaragua bill.

Mr. Quay called up the bill authorizing the promotion and retirement of the present senior major general of the army, Major General John R. Brooks, and it was passed.

Mr. Platt of Connecticut suggested that the committee on military affairs report to the senate a bill providing for a permanent grade for the retirement of officers, and Mr. Warren of Wyoming thought that all officers who had served in the civil war ought to be permitted to retire at one higher grade than they held in the army.

A bill providing that the postmaster general may extend free deliveries to cities of 5000 inhabitants or \$5000 income instead of 10,000 inhabitants as at present, was passed.

Mr. Money of Mississippi questioned the accuracy of a statement made recently by Mr. Hoar in his speech on the Philippine bill, on the origin of the Monroe doctrine.

Mr. Hoar stated that John Quincy Adams was the author of the doctrine. Mr. Money contended that the doctrine was the result of consultations between Mr. Canning, the British prime minister, and Mr. Bush, the American minister to Great Britain.

Consideration was begun of the military academy appropriations bill which carries appropriations aggregating \$2,625,324.

Mr. Bate of Tennessee, a member of the military affairs committee, protested against the vast extent of the improvement proposed at West Point, aggregating, he said, \$5,500,000, the increase provided by the senate being about \$1,000,000.

The House.

Washington, June 5.—The debate on the anti-anarchy bill continued all Wednesday in the house, being confined almost entirely to the legal constitutional phases of the question. Mr. Jenkins of Wisconsin and Mr. Parker of New Jersey contended that the bill did not go far enough; that the killing of the president should be made punishable by death without any limitation whatever. Mr. Powers of Massachusetts and Mr. Nevin of Ohio supported the measure as it came from the committee.

When the house met Mr. Hull of Iowa, chairman of the committee on military affairs, reported back the resolution calling upon the secretary of war for a detailed statement of expenditures made under the direction of General Wood during his administration of governor general of Cuba, with the recommendation that it lie on the table and moved the adoption of the report. Upon that question Mr. Hay of Virginia demanded the ayes and noes, and the roll was called. The report was adopted—110 to 78.

Texas Ranks Third.

Washington, June 5.—Texas now ranks third in the number of national banks in operation. Pennsylvania comes first, with 541; New York is second, with 347, and Texas has 313. Pennsylvania will retain the lead for many years in all probability, but it is likely that Texas will pass New York by the end of the year.

Bryan Must Be a Populist.

Indianapolis, June 5.—It is understood that the Populists of Indiana will favor the nomination of William J. Bryan for president in 1904, but only on condition that he become an avowed member of their party.

Must Close on Sunday.

Sherman, Tex., June 5.—Chief of Police Blain has notified all saloon men that the law against open houses on Sunday will from henceforth be strictly enforced.

Died of His Wounds.

Sherman, Tex., June 5.—W. P. King of this city has received a telegram announcing that his son, S. P. King, who was accidentally shot at Memphis, Hall county, Tuesday, had died.

AGAINST PACKERS.

An Injunction Granted Against the Alleged Combine in New York.

Albany, June 5.—Supreme Court Justice Chester has granted an injunction restraining certain beef packers of the west from carrying on business in the state in violation of the anti-trust law. The order was served upon the representatives of the concerns in this city and will be served on others throughout the state as quickly as they can be reached. It was obtained upon the affidavit of D. Q. Meredith, a former manager of Swift & Co.

The injunction is directed against Armour & Co., Swift & Co., Cudahy Packing company, Hammond company, Schwarzschild & Sulzberger Co., and Nelson Morris & Co. Their managers and all persons acting for them are restrained and enjoined from fixing and determining by combining the prices to be charged for meat and from agreeing among themselves as to the supply of meat to be brought into this state by them and from acting upon any understanding tending to diminish such supply and from fixing or maintaining prices of their and each others products by agreement.

They are also enjoined from acting under any agreement whereby price of labor shall be affected or competition therein affected and also maintaining uniform rules for credit to dealers or fixing uniform prices for car tags.

Justice Chester directed that the injunction "continue until further order of the court."

Big Judgment Paid.

Dallas, June 5.—The judgment of the United States court in the case of Mrs. Jennie M. Metter against the Fidelity Mutual Life association of Philadelphia was satisfied Wednesday when the company paid into court the sum of \$24,028.25. The costs in this case amount to \$2358.28, and are taxed against the defendant. The case has been in court for the last five years and was carried to the supreme court of the United States, which handed down its decision May 5.

This case involved the constitutionality of article 3071 of the revised statutes of Texas, which provides that in all cases where a loss occurs and the insurance company liable therefor shall fail to pay in the time specified in the policy it shall pay to the holder of the policy in addition to the policy "2 per cent of the amount of the loss, together with all reasonable attorney's fees for the collection of the claim."

Murder and Suicide.

Austin, June 5.—A terrible murder and suicide were committed here when J. F. Waxler, a carpenter, aged 26, with a long butcher knife cut the throat of his young 15-year-old wife and then took the bloody knife and cut his own throat. Their heads were almost severed from the bodies. The crime occurred at the Waxler home, near the Blind Institute, and there was no eye-witness to the terrible tragedy. Jealousy supposed to be the cause.

Mud Volcano in Russia.

Baku, Russia, June 5.—The Gushyran, a mud volcano, situated near the village of Kobi, Caucasasia, has been in eruption. The outburst was accompanied by cannonlike reports. The country around the volcano for some distance was enveloped in flames but with the exception of the destruction of flocks of sheep no fatalities have been reported. A few sheep herders were burned.

Accidentally Shot.

El Paso, Tex., June 5.—Charles Krause, a baker, was shot in the left breast in his room Wednesday. He will recover. The wound is said to have resulted from the accidental discharge of a pistol which Krause was cleaning.

Struck by a Train.

Garland, Tex., June 5.—Avy Summers, section foreman on the Santa Fe, was struck by the northbound flyer here and very seriously injured. Both legs were broken and internal injuries were sustained.

Fell Fifty Feet.

El Paso, Tex., June 5. Albert Derrick, head brakeman on a Bisbee railway construction train, fell fifty feet from a trestle with a car of gravel on which he was riding and crushed into a pulp.

Shooting Near Devers.

Devers, Tex., June 5.—In a shooting affair between Charley Carsin and H. P. Roberson, about eight miles southeast of this place, in which a shotgun and Winchester rifle were used, Charley Carsin was killed.

A Novel Strike.

Cleburne, Tex., June 5.—Thirty-seven men in the Santa Fe blacksmith shops walked out Wednesday because the company did not furnish sufficient ice for drinking water.

Depot Safe Blown.

LaGrange, Tex., June 5.—The Southern Pacific passenger depot here was burglarized. The safe was blown open and the contents, amounting to \$275, were taken.

No Jurisdiction Over Street Cars.

Austin, Tex., June 5.—The railroad commission several days ago submitted to the attorney general the question as to whether or not it had jurisdiction in deciding controversies over crossing where one party is a street railway. It is understood that the attorney general has advised the commission that it is without jurisdiction in such cases. The question arose in a case at El Paso, where the electric railway seeks to cross a grade of the Santa Fe.

Accidentally Killed Himself.

Corsicana, Tex., June 5.—Lawrence, the 17-year-old son of M. T. Jackson, of this city, accidentally shot and killed himself at Richland. The young fellow reached for his shotgun to shoot at something and the hammer caught on a box, firing and killing him instantly. The shot entered the mouth and came out at the back of the head.

Military Academy Bill Passed.

Washington, June 5.—The senate passed the military academy bill without amendment.
